

PTA[®]

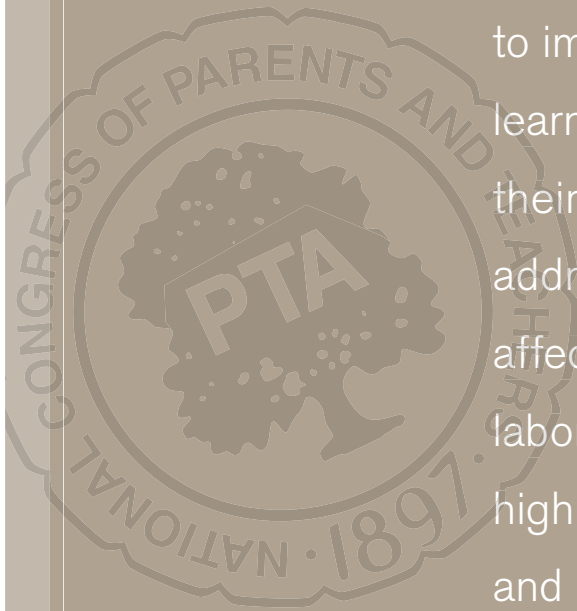

A Proud Past

A Bright Future

PTA[®] was founded in 1897

to improve children's lives and learning by involving parents in their children's education and addressing social problems affecting families, such as child labor, rampant childhood disease, high infant mortality, delinquency, and a criminal justice system cruel to youth.

From the beginning, PTA has advocated for a strong public school system, with initiatives aimed at securing adequate funding, improved teacher training, and equal educational opportunities for all children.

**PROGRESS IN EDUCATION AND FAMILY WELFARE
IS THE HISTORY AND FUTURE OF PTA.**
